

## BOONE COUNTY Solid Waste Management District

Volume 3 - Issue 3

Boone County Solid Waste Management District E-Newsletter

### Registered Haulers

Have you ever needed to order a roll-off container for your business or residence and not known who to contact? On an annual basis, haulers that do business within our County register with the District. These haulers offer a variety of services that can include, but are not limited to: curbside trash pick-up & recycling, roll-off container drop off & pick-up, clean-up services, and more. Haulers that are currently registered with the Solid Waste Management District are:

Boone Co. Resource Recovery	317-769-4223
Gabriel Metals	765-485-0877
Lusco Corporation	317-773-2780
Ray's Trash Service	317-539-2024
Republic Services	317-917-7300
Smith's Trash Service	765-436-2399
Strouse Roll-Off	317-422-8116
Wampler Services	765-659-3721
Waste Management	317-635-2491

If you are doing business with another company, please call the District office to find out the status of their registration.

### Program Spotlight: Citizen's Advisory Committee

The District hosts a Citizen's Advisory Committee ("CAC") meeting on the 2nd Wednesday of every other month beginning in February. The meetings are at 8:30 a.m. and currently held in the Connie Lamar Meeting Room of the Boone Co. Annex Building. The CAC is made up of representatives working in the solid waste industry, representatives of the environmental community and citizen's who are knowledgeable and interested in the environment. All members of the CAC are residents of Boone County.

The Boone Co. SWMD CAC is tasked with studying, discussing and making recommendations to the District's Board in regards to programming. Specifically, the CAC completes detailed reviews of scholarship applicants, the District's annual budget and community grant applications. At this time, there are open spots on the CAC and if you are an interested citizen, please contact the District office.

### Where Do I Take...Latex Paint?

As our residents start preparing for the HHW collection event in April, please note latex paint is NOT an accepted material. This is due to latex paint being water based and is not toxic; therefore, it is safe to dispose of in our residential trash. The trick is to **DRY IT OUT** first. This can be done by simply leaving the lid off. But to speed up the process, you can add kitty litter or another drying agent. Then place your dried out can in a garbage bag and dispose of it in your curbside trash. If the haulers see the cans, they will not pick them up. They do not have the time to open each can to ensure they are dried. The haulers are being preventative to ensure a spill does not occur on the roadways during their routes. Any additional questions, contact the District office for help.
